

object-relational model

```
graph BT; A[object-oriented model] -- "derived from" --> C[object-relational model]; B[entity-relationship model] -- "derived from" --> C;
```

The diagram illustrates the conceptual lineage of the object-relational model. It features three blue rectangular boxes. At the top center is the 'object-relational model'. Below it, to the left, is the 'object-oriented model', and to the right is the 'entity-relationship model'. Two black arrows point upwards from the bottom boxes towards the top box. The arrow from the 'object-oriented model' is labeled 'derived from' to its left. The arrow from the 'entity-relationship model' is labeled 'derived from' to its right.
